

ADVANCE Flying Suit 2007

This completely new Flying Suit offers great warmth and freedom of movement. The practical details make this product a real ADVANCE one.

The third edition of our Flying Suit was developed in close collaboration with Team Pilots and various flying schools. The result is a very robust and warm product.

- o Waterrepellent, (Supplex wp 6'000mm), Windproof and breathable (mp 4'000g/m2/24)
- o stretch insert in the back
- o PrimaLoft® insert at the knees
- o Colour : anthrazit / yellow
- o Sizes : XS, S, M, L, XL, XXL

Collar

Neoprene-reinforced design with embossed logo, adjustable with either hand. Smooth, warm with a quick-dry finish.

Back

The stretch insert offers you the best possible freedom of movement and a great breathability.

Chest

Two large central chest pockets provide plenty of storage without getting in the way in flight.

2 way Zippers

This YKK Zipper system offers additional ventilation.

Handcuff

Clever design keeps your hands warm and allows total freedom of movement.

Cell phone pocket

This phone pocket on the forearm will keep your cell phone where it's always easy to reach, but will interfere least with your instruments.

“Double” hip pockets

Next to the Flying Suit hip pockets two special zips give direct access to your trouser pockets.

Reinforced leg protection

Heavy duty Cordura reinforcements protect the lower leg edges from wear arising from takeoffs on rough ground.

Internal ankle gaiter

An internal gaiter and heel strap for each ankle guarantee the best wind protection. The velcro system allows adjustment for any kind of footwear, from sneakers to ski boots, and a Primalot insert on each knee provides additional warmth.

A PrimaLoft® insert at the knees offers you warmth.
